

Portable urban air purification system

washable the filter

Along with plasma,
electrostatic , UVC , absorbent
cloth technologies

Features

- Removal of microorganisms, bacteria, fungi, viruses and organic substances
- Reduces environmental dust by more than 90%
- Can be installed outdoors
- Suitable for public places

System Properties	
Input power	380 V - 3 phase
Power	8 kW
Dimension	2.30×2.30×6 m
Weight	4000 kg
Air purification capacity	100 – 600k m ³ /day
Noise	< 80 dB
Reduction rate	>90%
Flow rate	1 - 7 m/s
